Dr. Plus®

ABOUT US

Dr. Plus has redefined and offered a new shape for what is a “First Aid Kit”. It is more than a kit, it is a lifestyle that can be with us and next to us.

Founded in İzmir in 2010, Dr. Plus began its journey with **stylish and practical kits** designed for personal needs across different activities and environments.

By reinterpreting classical first aid kits from an innovative perspective, it has expanded its reach to the **Middle East and Europe**.

Today, the brand naturally extends **beyond individual use**, finding its place in workplaces, institutions, and social initiatives through **brand collaborations**, while also contributing to **meaningful causes**.

B2B SOLUTIONS

Through thoughtful B2B collaborations, **Dr. Plus** enables medical products to become **shared messages of care**.

Our **co-branded solutions** offer organizations a meaningful way to support internal initiatives, social awareness efforts, or community-focused projects while transforming everyday essentials into **symbols of responsibility and collective impact**.

Dr. Plus brings together **diversified expertise** and a portfolio of reliable brands, **helping partners communicate their values, demonstrate commitment to society, and enhance their positioning within the industry**. Through selected collaborations, brands may take part as **B2B partners or brand ambassadors**, extending their impact beyond products and into purpose-driven engagement.

We would love to connect and explore potential collaborations aligned with your brand values and objectives.

Dr. Plus®

B2B SOLUTIONS

Dr. Plus develops adaptable partnership models designed to create measurable value across diverse industries. With co-branded solutions, the brand supports organizations in strengthening engagement, reinforcing social commitment, and delivering practical impact through thoughtfully integrated products.

Automotive: Supports brand awareness and customer loyalty programs through value-added product integrations. Ideal for after-sales engagement, campaign activations, and customer retention initiatives. *For example, you can include co-branded safety kits in new vehicle deliveries or offer them as part of a seasonal service campaign to strengthen customer loyalty.*

Insurance: Can be integrated into healthcare and motor insurance policies as a tangible added-value solution, enhancing customer experience and strengthening policyholder relationships. *You may provide policyholders with branded health support kits alongside new policies, creating a visible and practical extension of your coverage.*

NGO & UN Programs: Suitable for national and multinational humanitarian initiatives, offering practical and scalable solutions for community support, emergency response, and social impact programs. *For example, during natural disaster response operations or refugee support programs, you can distribute co-branded medical kits directly to affected communities, providing immediate practical aid while visibly communicating your organization's commitment on the ground.*

Class A Corporations: Creates meaningful collaboration opportunities within corporate social responsibility strategies, employee engagement programs, and brand reputation development initiatives. *You might integrate customized kits into employee wellbeing programs or CSR projects, reinforcing your brand values through tangible action.*
